SUPERINTENDENT'S REPORT

To the School Board and Citizens of Dalton:

It is with pleasure that I submit my annual report relative to your schools.

This past year brought one change in the faculty. Mrs. Claribel Blakslee of Dalton was elected to replace Mrs. Marion Clarkson in Grades five and six.

The enrollment this year in the six grades is 86 as compared with a total of 83 last year. The enrollment in the Whitefield School at the present time is 59. Twenty-nine of this number are enrolled in the elementary grades and thirty in the senior high school.

The report of the school nurse is in a separate health report following this report. Mrs. McGinley continues to do an excellent job for your school.

This spring all children in Grades one through six will be given both mental maturity tests and achievement tests. This is part of a program set up by the North Country superintendents and the State Department of Education. Receipts from National Forests in the area will finance the program.

All classes have adequate books, supplies and teaching aids. This past winter two teachers participated in an extension course in The Teaching of Science in the Elementary School.

The school lunch program is still being carried on through the cooperation of the Community Club and the able direction of Mrs. Eleanor Bell.

The budget for this coming year is not too different from the budget of this year. There are small increases in several areas. State-aid was increased considerably this past year, over previous years, due to the increased appropriation by the legislature. I anticipate that Dalton will receive approximately the same amount this coming year.

In closing, I wish to express my sincere appreciation to the citizens of Dalton, the school board, teaching staff and other district officers for their continued cooperation.

Respectfully submitted,

LESLIE S. CUMMINGS

Attention Parents:

It's extremely important that eye defects be checked early in the school year.

Infected tonsils should be removed before hearing difficulties and rheumatic fever with heart and joint involvement set in.

These can cause permanent handicaps to your child.
